14TH & 15TH OCTOBER 2006

**promoted by
Lampeter and District Motor Club**

FOREWORD

Welcome to the 2006 Dafydd Richards Memorial . This year we have a new sponsor to support the event, in Mr Martin Griffiths of Moduron Tycroes Motors, and we would like to thank him for his support this year.

This year we also have a brand new organising team for the event, and we hope to continue the good work of the previous organisers in future years. We would also like to offer our thanks to the outgoing organisers for their hard work over the last 10 years.

We would also like to thank in advance all people connected with the event, and also all householders and landowners along the route for their patience.

The start venue of the rally has also changed this year, and the event will start and finish on the premises of the Black Lion Hotel in Lampeter, and in between we hope to provide a testing route for both drivers and navigators of some 120 miles on OS map 146.

This rally is dedicated to the memory of Dafydd Richards, who was a devoted member of Lampeter and District Motor Club, and a former winner of the Welsh Tarmac Championship

We look forward to welcoming you to Lampeter on the night, be it as a competitor or marshall.

The Organising Team.

- SF - Standard Section Finish Time Control
- RF - Regularity Section Finish Time Control
- ITC - Intermediate Time Control
- PC - Passage Control
- RC - Route Check
- VIA - Via Control
- SC - Secret Check

At each Main Control and Time Control the marshal will enter the time shown on the control clock and sign in the appropriate place on the Time Control Card. Whilst at Passage Controls the marshal will only sign the passage control card in the appropriate place

Some controls or checks may not be manned, these may be represented by a Code Board or Route Check. Competitors must record the symbols, letters and numbers displayed on these boards in the correct format, order and orientation in which they appear on the code board in the relevant place on their Passage Control Card before proceeding. The marshal manning the next Time Control, or the next Passage Control, whichever is soonest, must endorse the code, by signing in the relevant place. Should a code not be recorded in the relevant place on the passage control card, then the marshal shall strike through that particular box and will not put their signature to that control. Some Code Boards will consist of white letters and white numbers on a contrasting background. For ease of transport, some may also be positioned at right angles to the ground, and may read upwards or downwards.

Where there may be more than one code recorded, it is the competitors responsibility to ensure the marshal at the next Manned Time or Passage Control endorses each code individually. i.e. 3 codes - 3 separate signatures.

A Control Board will indicate **all** controls 50 yards ahead of the correct direction of approach. However some secret checks manned by either Judges of Fact or Driving Standards Observers (DSO's) might not be proceeded by a control board.

Controls must be visited in the order specified in the route card, any controls visited out of order will be deemed not to have been visited.

Sections of the route may include Not as Map triangles that will have a control Area of 3 metres. They will be identified in the route card and preceded by a control board on the correct direction of approach.

Should any entry on a time card or passage control card not be legible, or not appear authentic, it will be deemed not to have been made. All available marshal's check sheets may be scrutinised for penalties or offences not apparent on the competitors Time Cards or Passage Control Cards.

It is not the duty of any marshal to interpret regulations or other written instructions to a competitor or to explain the meaning and/or effect thereof. It is the responsibility of

competitors to read and understand these regulations and all written instructions.

Controls will open 30 minutes before the due time of the first car, and close 30 minutes and 59 seconds after the last car is due - K.16.1

A competitor who causes **ANY** form of harassment to a marshal or any other official, before, during or after the event, or who remains in a control area subsequent to an instruction from an official to depart, will be reported to the stewards of the meeting. The organisers reserve the right to exclude any such competitor if they so wish.

An altered or amended Time Card or Passage Control Card will only be accepted if it is countersigned by the marshal at the time of alteration. It is the competitors responsibility to ensure that his time card or passage control card is clearly and correctly marked - **COMPETITORS WILL BE EXCLUDED FOR DEFACING OR ALTERING A MARSHALLS ENTRY ON A TIME CARD OR PASSAGE CONTROL CARD.**

16. TIMING

The event will use the scheduled timing method. Timing will be to BST (BBC Time) and by marshals' digital clocks. All crews are advised to carry an accurate digital watch with them.

There will be Four types of section:

STANDARD SECTION:

This is a section where a time penalty will be applied for being early or late. Some Standard Sections will be timed to an accuracy of less than one minute. Timing at the controls will be when the time card is presented to the marshal and NOT the time of entering the control area. (K17.4).

NEUTRAL SECTION:

These are deemed **QUIET** sections and are used to take the rally through PR sensitive or densely populated areas, and will not be timed to an accuracy of less than one minute. **PLEASE RESPECT THEM.** They are timed at a low average speed and competitors must complete the section in as high a gear as possible and without use of auxiliary lights (except as permitted by law when driving in fog or falling snow). Competitors **MUST NOT** make up time in these sections, and no penalty will be incurred for lateness other than for exceeding maximum lateness. Any lateness incurred in these sections will be cumulative towards Maximum Lateness.

REGULARITY SECTION:

There will be regularity sections which may be run at an average speed of 30 mph or less. Competitors **WILL** be required to stop at Secret Intermediate Time Controls (K3.3.2, K15.4). The time recorded at Intermediate Time Controls and Finish Controls will be when the competitor passes the control board (K15.4). Penalties may be applied for stopping within site of Regularity Intermediate Time Controls, or Regularity Finish controls.

TRANSPORT SECTION

These sections will transport competitors between other types of section, where the route may not be densely populated or particularly PR sensitive, and will not be timed to an accuracy of less than one minute. K17.7 (3/4 rule) may be applied if applicable.

No penalty will be incurred for lateness other than for exceeding maximum lateness. Any lateness incurred in these sections will be cumulative towards Maximum Lateness.

Some sections will be timed to an average speed of less than 30 mph, in order to take competitors through PR sensitive and Quiet areas only. Competitors will be advised of this in their Rally Pack, when they have signed on.

Competitors will be instructed to reduce lateness en route.

A competitor who wishes to may miss a control or controls. He will be penalised in accordance with K.18 for every control missed. If he rejoins the route at a control at the end of a competitive section he will be permitted to restart without further penalty at any time between his original scheduled time and his maximum permitted lateness, this maximum permitted lateness time still being in relation to his original scheduled time. If the rejoining control is at the end of a neutral section, he will only be permitted to restart without further penalty at his official corrected time taken at the last control at which he reported within maximum lateness.

Competitors late at one control may be the equivalent amount late at succeeding controls without further penalty provided maximum lateness is not exceeded.

Where a control at the end of a section timed to the second also forms the start of a section timed to the minute, the departure will be taken as the time of arrival but to the preceding whole minute (i.e. the seconds will be ignored) this will be in accordance with K.17.5.1
